

## SHE™

The only product on the market that combines Camu-Camu and Maca root concentrates.

As soon as a young woman begins to menstruate, she can benefit from taking Royal Maca®. For teenagers and women who are petite or sensitive, Royal Maca® can be overstimulating unless they take a tiny amount. The combination of Royal Maca® and Royal Camu® in the proportions in SHE™ works much better for these women than either one separately. The formula in SHE™ has proven to be very effective for relief from symptoms caused by hormone imbalance.

## Both Royal Maca® and Royal Camu® Support

- Increased energy levels\*
- Better mood balance\*
- Reduction of stress\*
- Heavy/painful period relief\*
- A regular menstrual cycle\*
- Reduction of PMS symptoms\*
- Healthy adrenal function\*
- Healthy cortisol levels\*
- Healthy progesterone levels\*
- Production of anti-inflammatory estrogen\*
- Fertility and a healthy reproductive function\*
- Postpartum mood balance\*
- Healthy skin (acne reduction)\*

## Directions for Use

Keep away from light.

**Teen/Petite/PMS & Peri/Post Menopausal:** Take 1 capsule daily in the early morning and 1 capsule in the afternoon away from food. If symptoms do not improve in 5 days, increase dosage to 2 capsules twice a day.

**Women with a period:** Take 2 capsules daily.

**Warning:** Avoid any form of estrogen or precursor hormones. May be taken with progesterone-only birth control pills. Do not use with Tamoxifen® or Lupron®.
