

Dark Royal Camu®

Botanical Name: *Myciaria dubia*

Camu-Camu is a non-citrus rainforest berry that grows wild in the Amazon river of Peru and Brazil. It is the most potent food-source of natural Vitamin C on Earth!

Our brown-colored Camu-Camu appeals to people who want no additives in this fruit product. It contains only dehydrated fruit and peel and has the same 8-10% Natural Vitamin C Complex (with flavonoids) as our light-colored Camu-Camu produced by spray drying. Although the taste is a little bitter and slightly astringent, it is delicious in smoothies or added to other juices.

Supports

- Immune system*
- Mood balance*
- Energy increase*
- Seasonal allergy relief*
- Pain relief*
- Hormone balance (can be taken 3 times daily during transition from HRT to Royal Maca®)*
- Cardiovascular system*

Directions for Use

Best taken on an empty stomach for complete absorption. Drink with water, juice or add to fruit smoothies.

For Immediate and Urgent Use: Stir or blend 1/2-1 teaspoon in cool water every 1-3 hours.

Maintenance: Take 1/4-1/2 teaspoon upon rising and, if desired, 1/4-1/2 teaspoon mid-afternoon or later.

Mood Balance*: Take 1/4-2/3 teaspoon upon rising and again mid-afternoon daily.

Note: Do not add Dark Royal Camu® powder to hot drinks. Heat makes Vitamin C break down quickly.

Product Specifications

Serving size: 1/2 teaspoon

Bottle size: 32g, 74g powder

Servings per bottle: 29, 74

One serving of **Dark Royal Camu®** contains: *Myciaria dubia* 550mg (No additives - the high Vitamin C content is stabilized using slow-heat dehydration).
